Preheat oven to 350. Place squash, cut side down, on an oiled baking pan; bake 30 minutes or until soft. Let cool and scoop out pulp. Set aside. In a large sauté pan, melt butter and add onions and apples. Saute over medium low heat for 6-9 minutes or until softened and translucent. Transfer onion mixture and squash to food processor; add curry and puree. Slowly add chicken broth while processor is running until soup reaches desired consistency. Season to taste with salt and pepper. When ready to serve, warm gently. Pour into bowls and float a tablespoon of warm cream over each serving. Top with a parsley sprig.
