

## U.S. SENATE BEAN SOUP

Soak 1 pound white beans overnight in cold water and cover. Drain the beans and put them in a soup kettle with a ham bone that still has some meat on it and 3 quarts water. Bring the water to a boil and simmer the mixture for about 2 hours. Stir in 1 cup cooked mashed potatoes and add 3 onions, 1 small bunch of celery including the tops, and 2 garlic cloves, all finely chopped, and  $\frac{1}{4}$  cup chopped parsley. Simmer the soup for 1 hour longer, until the beans are thoroughly cooked. Remove the ham bone from the kettle, dice the meat on it, and return the meat to the soup.

Serves 6
