TERIYAKI MEATBALLS

"Easy to fix ahead and serve later!"

3 pounds extra-lean or lean
ground beef
1 cup soy sauce
½ cup water

2 teaspoons powdered ginger
1½-2 cloves garlic, minced very
fine
toothpicks, for serving

Form meat into approximately 100 one-inch meatballs. Place compactly in a 9 x 13 baking pan. Combine marinade from soy sauce, water, ginger and garlic. Pour over meat and allow to marinate for one hour at room temperature. Preheat oven to 275; bake uncovered for 35-40 minutes or until meatballs are firm. Do not overcook since they are kept warm while serving and continue to cook. Serve in sauce from a heated dish or chafing dish.

Note: Meatballs can be formed a day ahead or early in the day. Place in baking pan and wrap tightly; add marinade as directed in recipe.

“Extra easy since there’s no browning involved!”
