

STRAWBERRY ICE CREAM PIE

"A show-stopper dessert made one day ahead!"

Meringue Pie Shell:

3 egg whites, at room
temperature
1 teaspoon vanilla
 $\frac{1}{4}$ teaspoon cream of tartar
 $\frac{1}{8}$ teaspoon salt
1 cup sugar

Ice Cream:

1 quart low-fat vanilla or
strawberry frozen yogurt,
sorbet or low-fat ice cream

Topping:

1-2 pints strawberries, capped
and sliced
1 10-14 ounce carton frozen
strawberries, thawed

...from our collection of family favorites

Pie shell: Place room temperature egg whites in deep bowl of electric mixer; add vanilla, cream of tartar and salt. Beat until soft peaks form. Very gradually add sugar while mixer is running. Continue beating until stiff peaks form. Cover flat baking sheet with brown paper; use a 9-inch cake pan to draw a circle on the brown paper. Use a large spoon to gently spread meringue into circle; form into a shell with $\frac{1}{2}$ inch bottom crust and $1\frac{3}{4}$ inch sides. Bake in a preheated oven at 275 degrees for 1 hour. Turn off oven. Do not open door. Leave piecrust in oven for an additional 2 hours. Remove from oven and allow to cool. Piecrust can be stored in a dry location for 1 or 2 days before filling.

Strawberry Sauce: Spoon thawed berries over sliced fresh berries; stir gently. Chill until ready to serve.

To fill: Pile scoops of ice cream into pie shell and top with berries and juice. Serves 6.

Note: The crust sounds harder than it is.

"Try filling with vanilla ice cream and drizzling with hot fudge sauce!"
