With a low cholesterol recipe variation

1 cup chopped pecans

2 teaspoons vanilla

GLAZE:

3 tablespoons corn oil
margarine

3 tablespoons light brown sugar

3 tablespoons sugar

3 tablespoons evaporated
milk

DECORATION:

12 pecan halves

Preheat oven to 325. Grease and flour a 10-inch tube pan; set aside. Mix oil and sugars in a large mixing bowl, beat in eggs, one at a time. Mix all dry ingredients together with a fork and blend into creamed mixture. Stir in all remaining ingredients. Spoon into pan and bake for 1 1/2 hours or until cake springs back when pressed lightly near the center. Cool in pan for 15 minutes; remove cake from pan and place on rimmed cake plate. Set cake aside and prepare glaze. **GLAZE:** Place all glaze ingredients in a saucepan and bring to boil while stirring constantly. Boil one minute and slowly spoon over cake. Decorate top with pecan halves. Yields 20 slices.

Note: Freezes nicely. For a fresh baked appearance, glaze and decorate cake after thawing.

LOW CHOLESTEROL VARIATION: Use no-stick cooking spray to grease cake pan; use Egg Beaters for eggs and use evaporated skim milk. Cut pecans to 1/2 cup or omit. No one would ever guess this is a low cholesterol cake.
