Use a large spoon to cream butter, cream and flour. Chill in a covered bowl until easy to handle. Preheat oven to 375 degrees. On a flour-covered board, roll $\frac{1}{3}$ of the dough to a thickness of $\frac{1}{8}$ inch. (Keep remaining dough chilled.) Cut into $1\frac{1}{2}$ inch rounds. With a spatula, transfer rounds to a piece of waxed paper which has been sprinkled with $\frac{1}{2}$ cup of granulated sugar. Coat each side with sugar. Place on an ungreased baking sheet and prick 4 times with a fork. Repeat with remaining dough. Bake 7-9 minutes. Do not brown. When cookies have cooled, put wafers together with cream filling in the middle.

Filling: Cream butter, sugar and vanilla until smooth and fluffy. Yields $2\frac{1}{2}$ - 3 dozen double cookies.
