

Words Worth Eating

MICROWAVE APPLE WALNUT PIE

"Covered with a crunchy topping!"

5 large Granny Smith apples,
peeled and thinly sliced
1 tablespoon fresh lemon
juice

no-stick cooking spray

TOPPING:

3/4 cup light brown sugar

1/2 cup quick Quaker oats

1/2 cup chopped walnuts

1/4 cup flour

1/2 teaspoon cinnamon

pinch nutmeg

4 tablespoons corn oil margarine,
cut into small pieces

(over)

With a low cholesterol recipe variation

*1 pint vanilla ice milk or
low-fat frozen yogurt, optional*

Prepare apples; toss with lemon juice and set aside. Lightly spray a 9- or 10-inch pie plate with no-stick cooking spray and fill with apples.

TOPPING: Place all topping ingredients in a bowl; use a pastry blender to cut in margarine until mixture is crumbly. Sprinkle topping over apples in an even layer. Cook on high for 8-10 minutes or until apples are fork tender and juices have bubbled up through topping. Serve at room temperature with your choice of ice milk or frozen yogurt. Serves 6-8.

Note: Be sure to rotate pie plate during cooking time. The whole pie or individual servings reheat nicely in the microwave. There will be a little juice in the pie plate if you cut the pie while warm. The juice thickens as the pie cools.

LOW CHOLESTEROL VARIATION: Walnuts can be reduced to 1/4 cup, or omitted.

"A delicious low-cholesterol dessert that will please all the members of your family!"
