

Words Worth Eating

NUTTY BAKED APPLES

"Serve as a side dish or dessert!"

6 Golden Delicious apples,
peeled and cored

2-3 tablespoons orange juice

4 tablespoons zwieback crumbs

4 tablespoons light brown
sugar

4 tablespoons sliced almonds

1 egg white, at room
temperature

4 tablespoons sugar

6 tablespoons peach preserves

1 pint vanilla ice cream or low-fat
frozen yogurt, optional

A low cholesterol recipe

Preheat oven to 350. Rub prepared apples with orange juice; set aside. Combine zwieback crumbs, almonds and brown sugar in a blender or food processor; blend into fine crumbs. Pour mixture into a pie plate and set aside. Beat egg white until frothy; dip each apple into the egg white and roll in nut-crumb mixture. Stand apples in a shallow glass baking dish and fill center with preserves. Pour water around apples to a depth of 1/4-inch. Sprinkle sugar in the water. Bake in a preheated 350-degree oven for 1 1/2 hours or until apples are fork tender. Serve warm with a scoop of ice milk or yogurt, if desired. Serves 6.

Note: The apples are a "knife-and-fork" dessert. This recipe can easily be prepared in smaller amounts. The baked apples can be reheated in the microwave.

"The nutty crust makes this an extra-special apple dish that is also low cholesterol!"
