

TUNNEL OF FUDGE CAKE

1½ cups butter or
margarine, softened
6 eggs
1½ cups sugar
2 cups Pillsbury's Best
All Purpose Flour

3⅓ cups Pillsbury Rich 'n Easy
Double Dutch Frosting
Mix** (save remaining mix
for a glaze)
2 cups chopped walnuts or
pecans

Preheat oven to 350°. Generously grease bottom, sides and tube of a 12 cup BUNDT† fluted tube pan or 10-inch tube (angel food pan). In large bowl, cream butter. Add eggs, one at a time, beating well after each. Gradually add sugar, creaming until light and fluffy. By hand, stir in flour, dry frosting mix and walnuts until well blended. Pour batter into prepared pan. Bake at 350° for 60 to 65 minutes. Cool 1 hour; remove from pan. Cool completely before glazing and serving. Makes 16-20 servings.

Glaze: Blend in small bowl until smooth, remaining frosting mix and 2¼ teaspoons water. If necessary, add a few drops of water to make a glaze consistency. Spoon over cool cake. Store cake under airtight cover.

Tips: ** Rich 'n Easy Double Dutch Frosting Mix and walnuts or pecans are essential to the success of this recipe. Since this cake has the soft tunnel of fudge, ordinary doneness tests cannot be used. Test after 60 minutes by observing a shiny brownie-type crust.

High Altitude Adjustment—Above 5000 Feet Bake at 375° for 60 to 65 minutes.
